

THREAT ASSESSMENT

Know Your Risks

As the business terrain continues to evolve, increased business risks and changing risk profiles create the need for organizations to continuously improve their ability to identify and manage risks. Are you clear on where your organization's vulnerabilities lie? Are you aware of emergent threats and how they might exploit your vulnerabilities?

At Lowers Risk Group, our comprehensive threat assessment program covers the spectrum of risk management and mitigation. From threat identification and evaluation to mitigation and ongoing monitoring, our program will help keep your risks in view and in check.

What We Do:

Identify

Monitor emergent and existing threats targeting your industry and your organization.

Categorize

Determine internal and external sources of threats. Begin to assign mitigation measures.

Evaluate

Assess the likelihood and outcome of each risk event. Prioritize accordingly.

Mitigate

Recommend proper security and defenses to address your specific threats.

Audit & Test

Check for suitability and employee compliance. Test for effectiveness.

Monitor

Evaluate, monitor, observe and assess for new or evolving threats and to optimize the program.
